Discovering THE MALDIVES

UNDERWATER ADVENTURES

The Maldives is one of the top destinations for snorkelling, and you don't need a boat. Just put on your mask and fins and off you go. Some hotels even have house reefs – easily accessible diving sites – right on their doorsteps. Our favourite is OBLU NATURE Helengeli by SENTIDO. Feel like diving into deeper waters? The Maldives' year-round warm sea means you can do this any time. A highlight you shouldn't miss is the incredible Baa Atoll. This is a UNESCO-designated Biosphere Reserve, where hundreds of whale sharks and manta rays gather each year to feed on plankton. One of the best places from which to see this wildlife spectacle is Hanifaru Bay, and we've chosen a resort here that offers regular excursions. Finolhu, which means 'sandbank' in the local Maldivian language, boasts a long stretch of white, sandy beach that stretches across four islands. Another popular resort for divers is Kuredu Island Resort & Spa. Lying on the northern reef of the Lhaviyana Atoll, it offers one of the most extensive diving operations in the Maldives. It's also the only resort to have a decompression chamber. The Maldives is one of the top destinations for snorkelling, and some hotels are lucky enough to have a house reef a few metres from the shore, so there's no need to get on a boat. Just put on your mask and fins, and off you go. Our favourite hand-picked hotels renowned for their house reefs are – OBLU Nature Helengeli, Baros and Emerald Faarufushi.

EXCLUSIVELY FOR ADULTS

As one of the top honeymoon destinations, the Maldives abounds in romantic resorts. But only a handful are child-free. That's why we've selected the pick of adults-only escapes where you can truly relax and indulge in some time together. These resorts include restful havens OBLU SELECT Lobigili and Komandoo Island Resort & Spa – both exclusively for adults and both with their own peaceful charm and elegance. Another option is to stay at a resort that offers adults-only areas and facilities, such as OBLU SELECT Sangeli. The resort's romantic Select Ocean Villas are reserved just for adults, whilst at Kuredu Island Resort & Spa, the sparkling Sangu Pool is exclusively for adults too and the incredible 5.8 Undersea Restaurant is for those aged 15 and over.

FAMILY FRIENDLY FAVOURITES

With its soft sands and calm waters, the Maldives is an ideal choice for families. In fact, family accommodation is so popular that it's often snapped up very quickly, leaving a limited supply. To avoid missing out, and to secure the best possible option for your family, we recommend booking as early as you can – and we're here to help you. Your youngsters can make the most of their stay at one of the many excellent kids' clubs at our selection of family friendly resorts. Constance Halaveli offers the Constance Kids Club, which hosts a full programme of fun-filled activities,

and it also has an excellent range of family accommodation. At Lux South Ari Atoll, there's both a kids' club and a teens' programme, ensuring youngsters of all ages stay happily entertained. The floating water park at Siyam World invites you to embrace your inner child and tackle a fun and challenging obstacle course. If you don't quite make it, you still have the warm, clear waters of the Indian Ocean to fall back into!

EXCITING ISLAND TRANSFERS

Reaching your resort is all part of the experience, and you'll arrive by either speedboat or seaplane, depending on your chosen location. Hotels closest to Malé, the main island, operate speedboat transfers, which are cost effective and easier for families travelling with younger children. For resorts further away, you'll fly by seaplane. The terminals are just a short bus ride away from the international airport, and whilst there is a lounge at the terminal, many of the hotels offer a private lounge where you can relax before take-off. Then, sit back and take in the incredible views as you fly over the spectacular atolls. Please be aware that seaplanes operate during daylight hours only. You may need to wait for other guests before you depart, some of whom may be flying to hotels en-route to yours. Reaching a few of the more far-flung hotels requires a short domestic flight, followed by a speedboat transfer. Something else to note is that seaplanes and domestic flights have a restricted baggage allowance policy.
