Sandra Smyth,
Tailormade
Sales Consultant

In October I was lucky enough to travel to Botswana with Ker & Downey for an amazing trip. Each stop offered something unique and special which makes doing a circuit like this the ideal experience for safari lovers, the teams at every camp are so friendly and being welcomed by song at each is the most emotional, glorious feeling!

Dinaka has its own watering hole which attracts countless species of wildlife and birding is spectacular here with over 200 different species being found in the area. Game drives are fabulous in the desert, and we stopped for sundowners at a raised platform with views of the plains for miles. Okuti is a water camp with its own barge for sundowners and even a resident hippo – Oscar! Our last stop was Kanane, the camp is newly refurbished and looking beautiful and the views of the plains for the camp common areas and the tents are incredible, the conservancy also has a really healthy population of lion so it's a great spot for seeking out these big cats. The team at all the camps were amazing and I celebrated my birthday while I was there with a homemade cake and a singing performance - such a special memory that will stay with me forever!
